PROJECTS

AI Resume Analyzer (Full Stack)
- A cloud-native resume optimizer using React Router, Tailwind CSS, and Zustand, which integrates the Puter.js API for AI-driven analysis and secure cloud storage, while leveraging PDF.js for automated content extraction to generate actionable ATS feedback.

Shiritori Versus: Two-player Word Game (Full Stack)
- Built a real-time two-player word game in Flutter with Firebase, using socket-based turn interactions and HP/skill mechanics for diverse gameplay.

Online Gradebook System (Full-stack)
- Developed a full-stack school management app with role-based dashboards, secure auth, real-time notifications, and grade workflows using React, Node.js, Express, and MySQL.

EXPERIENCE

Mini Clean Business Solutions (Full-stack Intern)

- Contributed to the development of two web applications using Vue.js and Laravel, focusing on building responsive interfaces and robust backend features.
- Contributed to the frontend development of a Flutter-based communication app for farmers, technicians, and administrators, supporting task assignment and work monitoring.

CERTIFICATIONS

- Information Technology Specialist - Databases (Certiport)
- Information Technology Specialist - HTML & CSS (Certiport)

EDUCATION

University of Mindanao
Summa Cum Laude
2022-2026

Bachelor of Science in Computer Science

- Relevant Coursework: Database Management, Software Engineering, Mobile Application Development, Artificial Intelligence, Machine Learning.
